

Virginia Green Partner Profile:

James River Bus Lines/Carey Transportation Richmond, Virginia

Virginia Green is the Commonwealth of Virginia's campaign to promote environmentally-friendly practices in all aspects of Virginia's tourism industry. **Virginia Green** has established "core activities" specific to each sector of tourism, and these practices are considered the required minimum for participation in the program. However, **Virginia Green** encourages its participants to reduce their environmental impacts in all aspects of their operations; and this profile provides a full list of all their "green" activities.

Virginia Green Partners are primarily committing to help support *Virginia Green* and encourage their customers to join or do business with Virginia Green-certified participants. Although not necessarily tourism facilities themselves, Partners are expected to practice green activities in their own facilities as well!

James River Bus Lines / Carey Transportation

A full service transportation organization

Green Statement: "Our building was designed 10 years ago as an energy efficient facility. We have always recycled our waste products, although last year we became much better with consumer product recycling. The use of our high capacity passenger vehicles saves significant amounts of energy (carbon). After calculating our carbon footprint (usage) and then applying the savings generated by our vehicles (removing cars off the road) our total carbon footprint is "negative" 10,000 tons per year. We produce carbon credits. We were "green" before it was the popular thing to do. We did it because it was the responsible thing to do."

CORE ACTIVITIES for all *Virginia Green Partner Organizations*

- ☒ **Support Virginia Green.** Partners must promote the Virginia Green Program to clients, members, and staff and encourage them to do business with Virginia Green participants. This partner organization pledges that they:
 - Encourage clients who are in the tourism industry to join Virginia Green.
 - Strive to design projects that minimize overall environmental impacts and incorporate the use of efficient systems and sustainable materials.
 - Carry and promote environmentally-friendly products and provide services that minimize the use of harmful chemicals and materials.
 - Have a travel / conference policy that encourages employees to stay in / do business with Virginia Green or similarly-minded facilities.
 - Send out emails or mailers to their membership about Virginia Green.
 - Made an official Virginia Green Endorsement of some kind through their Board or other Committee to support Virginia Green.
 - Set a goal for recruiting their member facilities.
 - Include a Virginia Green feature in their newsletter or other publication.
 - Display the Virginia Green certificate prominently in their facility / offices and use the Virginia Green window decals.
 - Use the Virginia Green logo on signage pointing out recycling or other "green" improvements in your facility.
 - Highlight their involvement in Virginia Green on their website and include a link to their Virginia Green facility profile

☒ **Green Meetings and Conferences.** When Virginia Green Partners hold meetings or conferences they must provide recycling and make an effort to reduce the use of Styrofoam and other disposables. This partner pledges that they:

- Minimize copying and always make 2-sided copies
- Have eliminated the use of Styrofoam cups and plates; instead they use actual mugs
- Use silverware instead of plastic utensils
- Use non-bleached napkins or maintain a supply of cloth napkins

☒ **Recycling and Waste Reduction.** Virginia Green Partners are highly encouraged to maintain a comprehensive recycling program if they have a facility. This partner pledges that they:

- Recycle: glass, aluminum cans, plastic, office paper, newspaper, cardboard, packing supplies, fluorescent lamps, batteries, electronic equipment, waste oil, used antifreeze, oil filters, rags and refrigerant
- Track overall waste bills
- Purchase recycled-content paper towels and toilet paper
- Encourage suppliers to minimize packaging and other waste materials
- Purchase from vendors and service providers with a commitment to the environment
- Make 2-sided copies/ printed materials
- Use electronic correspondence and forms
- Use "green" cleaners that are dispensed in bulk
- Purchase durable equipment and furniture
- Purchase low VOC carpets and fabrics
- Use latex paints
- Properly recycle/dispose of thinners and solvents
- Perform preventative maintenance on all appliances, HVAC systems, plumbing, and vehicles
- Use a last-in/first-out inventory and labeling system
- Use less toxic materials
- Minimize the use of pesticides and herbicides

☒ **Water Conservation.** Virginia Green partners are highly encouraged to have a plan for conserving water in their facility that should consider plumbing modifications and landscaping. This partner pledges that they:

- Track overall water usage and wastewater
- Perform preventative maintenance to stop drips and leaks
- Have:
 - low flow restrictors on faucets and showerheads
 - low flow toilets
- Discourage water-based cleanup (sweeping first)
- Have an effective landscape management plan which utilize drought tolerant species
- Have an effective stormwater management plan

☒ **Energy Efficiency.** Virginia Green partners are highly encouraged a plan in place that encourages replacement of lighting and equipment to energy-efficient alternatives in their facility. This partner pledges that they:

- Track overall energy bills
- Have an "energy management system" in place to track and meter energy usage
- Calculate the pollution factors of their energy usage
- Evaluate existing ovens and other kitchen equipment for energy efficiency
- Use:
 - compact fluorescent light bulbs in all rooms and in canned lighting
 - LED Exit Signs
 - high efficiency fluorescent ballasts and lamps (T5s and T8s)
- Have high efficiency heating & air conditioning (HVAC) systems
- Perform preventative maintenance on HVAC system
- Have geothermal heating and cooling
- Have individual thermostats for each room/area
- Have installed additional insulation
- Use natural lighting
- Have thermal-rated windows and insulation

- Use directional (downward-facing) lighting in parking areas and other outdoor areas
 - Use fuel efficient vehicles or hybrid vehicles
 - Have infrared heating system in garage and reflective floor color
-
